

## CS411 Weekly Report

### Team Sapphire - SleepSync

Performance Period: 2.15 - 2.21

#### 1. Summary of Group Accomplishments

- Reviewed expectations for Lab 1 Section 3 Draft and discussed who would be responsible for what material.
- Group meeting with our mentor to get feedback on our current design presentation and project prototype.
- Updated Demo 1 with new user roles and user stories to better align with our goals this semester.
- Made plans to begin working on our repo workspace and start outlining our database schema.
- Discussed more in-depth our plans to begin coding our project.

#### 2. Individual Contributions/Accomplishments

- **Riley**
  - i. Begun establishing our repository workspace so we could start coding and laying out the framework of our application.
  - ii. Updated the GitHub website with our weekly progress report to maintain continuous progress updates.
  - iii. Shared last semester's Trello boards with the team so we could begin discussion on how we want to format ours.
  - iv. Set up a recurring zoom meeting with our mentor so we can continue to meet with him once a week.
  - v. Held weekly meeting and outlined and assigned tasks for next week.
- **Addie**
  - i. Detailed future implementations in Sleep Sync app - background noise, youtube videos, articles
  - ii. Detailed case study group and what they would be testing - manual log entry and receiving a calculated sleep score
- **Grant**
  - i. Began organization of User stories from the previous class to define what we want SleepSync to be.
  - ii. Helped fix some minor errors on our document.
  - iii. Met with the team on Wednesday to gameplan the next batch of work needing to be done.
- **Thomas**
  - i. Began outlining the database schema and created initial SQL build file
  - ii. Refined/described core tables with appropriate key relationships
- **Alexa**

- i. Helped to prepare for the prototype demo 1 presentation
- ii. Working on collecting resources related to previous prototypes from previous projects to help in creating demo one
- iii. Attended weekly team meeting and helped to plan for next week.

- **RJ**

- i. Attended weekly meeting.
- ii. Able to add some more information regarding the case study
- iii. Started looking over feedback form last draft

### **3. Key Objectives for Coming Week**

- Finalize Demo 1 slide-deck for Thursday's presentation.
- Review individual work from last week.
- Meet earlier in the week next week to prepare for the presentation.

### **4. Issues/Concerns**

- Being sick is not fun.
